

Barbara Clapman

Artist Statement

I have been making art for a long time. Over the years I have experimented with many media (oil, oil pastel, watercolor, gouache, linocuts, monoprints, Chinese brush painting, calligraphy, batik) and many subjects (pure abstraction, animals, figure and portraits, flowers, still life, landscape, seascape, cityscape).

Favorites have been seascapes, inspired by many summers on Cape Cod and more recently on the Eastern Shore.

The work here is all from memory of big sky, sun, sand, ocean waves and breezes. All are oil on canvas, either on stretchers or mounted on board. They are unframed because I want the paintings to speak for themselves

I am delighted to be in this show, just in time for summer dreaming!
